

Knowledge Base - Information and Services around Biodiversity Data

About this Knowledge Base

The Knowledge Base contains information and resources around biodiversity data services and data management best practices offered by the NFDI4Biodiversity community. The resources in this Knowledge Base are developed and maintained by the members of NFDI4Biodiversity.

Follow our Datamanager Doro* or Post-doc Paul* through their useful resources or browse by topic:

- Tools & Services,
- Technical Architecture,
- Training and
- the NFDI4Biodiversity Data Network

Our legal podcast

Follow us through the legal jungle in the [NFDI4Biodiversity Podcast](#) on legal aspects in handling biodiversity and environmental data.

Working with data

Follow [Post-doc Paul](#) to helpful resources around our Tools & Services: Collecting, publishing and analysing data.

All about data management

Follow [Datamanager Doro](#) for documentation of our Tools, Services, Standards and Technical Architecture.

Our Data Center network

Find information about the [Data Center network](#) and their supported standards and archival workflow.
